
Stone Essentials® Quartz Surface Enhancer

PRODUCT DATA SHEET

Description

Stone Essentials® Quartz Surface Enhancer is a solvent-based color enhancer and protector for quartz surfaces such as Silestone, Caesarstone, Zodiaq, Cambria, Technistone and others. It brings out the brilliance of the quartz surface providing uniform color throughout the surface while providing protection from spills, stains and discoloration. Stone Essentials® Quartz Surface Enhancer is not limited to quartz surfaces. It can also be applied to interior/exterior surfaces such as natural stone, marble, granite, limestone and masonry forming a vapor-permeable barrier to resist water and stains while enhancing the appearance.

Advantages

- Superior color enhancement
 - Conceals scratches & chips
 - Vapor-permeable (breathable)
 - Interior and exterior use
 - Built-in stain protection
 - Uniform color & texture
 - Non-yellowing/U.V. resistant
 - Low odor/easy to use
-

Typical Applications

Note: ONCE ENHANCED, STONE CANNOT BE RESTORED TO ITS ORIGINAL APPEARANCE. To ensure product performance and satisfaction, always pre-test this product in an inconspicuous area. Users must determine suitability of product for their intended use.

Before applying sealer/impregnator/enhancer, make sure all surfaces to be treated are thoroughly clean and completely dry. Protect and cover surfaces not to be treated by this product.

1. Apply and saturate all surfaces with Stone Essentials® Quartz Surface Enhancer, allowing it to puddle and completely saturate the entire surface. Quartz Surface Enhancer can be applied with a paintbrush, paint roller, paint pad/applicator, clean towel, or low-pressure sprayer with no more than 25 psi. **Note: Do NOT Aerosolize.**
2. Allow Stone Essentials® Quartz Surface Enhancer to absorb and penetrate the entire surface (5-10 minutes). Do NOT allow sealer to dry on the surface.
3. Using a clean, dry towel, completely wipe up all excess sealer from the surface prior to allowing sealer to dry.
4. For more absorbent surfaces, apply a second application as directed in steps 1-3.
5. Do not walk on surface for 4-6 hours. Full cure is achieved in 24 hours.
6. Allow 24 hours for Stone Essentials® Quartz Surface Enhancer to completely dry and cure for best results. On Quartz surfaces the enhancer may leave a slight haze and can be removed by moistening a clean absorbent towel with enhancer and gently rubbing (buffing) and wiping the sealer off.
7. Clean tools with mineral spirits.

PRODUCT DATA SHEET – Quartz Surface Enhancer

Coverage

Application rates for natural stone, tile, grout, and masonry will vary depending on the porosity of the substrate to be treated. Some stone and grout areas will absorb more quickly than other areas.

Approximate Coverage Per Application

Quartz Surfaces	1800-3500 sq ft/gal
Low Porosity	1200-1800 sq ft/gal
Medium Porosity	800-1200 sq ft/gal
High Porosity	100-800 sq ft/gal

Note: Less sealer/impregnator will be needed when applying a second application.

Reapplication : Reapply every three to five years for interior application.

Maintenance

Quartz surfaces and natural stone needs to be cared for properly. Stone Essentials® Quartz Surface Enhancer is not an absolute barrier to all spills, stains, and soils. However, natural stone, tile, grout, quartz and masonry will repel stains and soils effectively when proper cleaning products and methods are used. To maintain your stone surfaces and grout use Stone Essentials® Daily Cleaner with Protector or Stone Essentials® Daily Commercial Cleaner.

Safety Precautions

- KEEP OUT OF REACH OF CHILDREN.
 - COMBUSTIBLE LIQUID AND VAPOR! Keep away from heat, flames and sparks. Eliminate all sources of ignition – heat, sparks, flames, electricity, friction, and static. Do not smoke when using.
 - Do not use this product with high-pressure sprayers. Use low-pressure sprayers with no more than 25 psi. Do not aerosolize.
 - Do not breathe spray or mist. Use this product with adequate ventilation. When there is potential for airborne exposures in excess of applicable limits, wear NIOSH-/MSHA approved respiratory protection.
 - READ SAFETY DATA SHEET BEFORE USING. Use only as directed. Wear protective gloves, goggles, and respirator when using. Avoid eye and skin contact. Do not breathe mists or spray. Keep container closed when not in use. Store in a cool, dry area.
 - Protect and cover surfaces not to be treated by this product.
